

Professions, occupations and training pathways in Germany

Vocational education
and training in Germany

Funded by

German Office for international Cooperation
in Vocational Education and Training

on the basis of a Decision
by the German Bundestag

Contents

1. Occupational fields in Germany
2. The German Qualifications Framework (DQR)
3. Two types of initial training
4. Company-based training in the dual system
5. School-based training
6. Opportunities for continuing training and career advancement

1. Occupational fields in Germany

 Agriculture, nature, environment	 Business, administration
 Production, manufacturing	 Transport, logistics
 Construction, architecture, surveying	 Services
 Metal working, engineering	 Health
 Electrical	 Social, pedagogy
 IT, computers	 Social sciences, humanities
 Natural sciences	 Art, culture, design
 Technology, fields of technology	 Media

2. The German Qualifications Framework (DQR)

An instrument for the alignment of
qualifications in the German education
system

Orientation and transparency
of qualifications and
competencies

Eight reference levels which correspond
to the European Qualifications
Framework (EQF)

Creates international comparability

Ensures greater occupational mobility in Europe

2. The German Qualifications Framework (DQR)

Systematisation by degree of complexity and type of task

DQR 1-2	DQR 3	DQR 4
No training – unskilled tasks	Dual (= company-based) training occupation (2 years)	Dual (= company-based) training occupation (3–3.5 years)
e.g. harvest worker, kitchen assistant/assistant cook, relief waiter, electrician's assistant*	e.g. specialist in the hospitality services industry, warehouse operator, construction finishing worker, sales assistant for retail services, skilled metal worker*	e.g. farmer, cook, warehouse logistics operator, mechatronics engineer for refrigeration technology, plant mechanic
		or: (full-time) school-based training occupation
		e.g. agricultural technical assistant, food technical assistant, hotel management assistant, technical commercial assistant in buildings services, mechatronics assistant – specialising in maintenance and service*

* The occupations within the same occupational field stated here do not necessarily build upon one another. They represent occupations at the different reference levels in the respective occupational field which are cited as examples.

2. The German Qualifications Framework (DQR)

Systematisation by degree of complexity and type of task

DQR 5	DQR 6	
Specialised higher qualification	Upgrading training leading to a qualification at master craftsman level	or: Upgrading technical training
e.g. certified professional specialist – IT specialist, service technician, dietary cook, service technician for wind turbine engineering, interior design consultant (Chamber of Industry and Commerce, IHK)	e.g. Bachelor Professional, master craftsman qualification in agriculture, master chef, master craftsman qualification in restaurant management, master craftsman qualification in electrical engineering	e.g. Bachelor Professional, agricultural engineering technician, food technology technician, building systems engineering technician
	or: Upgrading commercial training	or: Academic course of study leading to a Bachelor's degree at a university of applied sciences/institute of higher education
	e.g. Bachelor Professional in Agricultural Accountancy, Bachelor Professional of Business, Bachelor Professional of Management for Industry, Bachelor Professional in Publishing, Bachelor Professional of Accounting	

* The occupations within the same occupational field stated here do not necessarily build upon one another.
They represent occupations at the different reference levels in the respective occupational field which are cited as examples.

2. The German Qualifications Framework (DQR)

Systematisation by degree of complexity and type of task

DQR 7		DQR 8
Advanced upgrading training	or: Academic course of study leading to a Master's degree at a university of applied sciences/institute of higher education	Doctorate at an institute of higher education
e.g. Master Professional in Technical Business Management, Master Professional in Commercial Business Management, Master Professional of Vocational Training*	e.g. Master of Science (MSc.) in Agriculture*	e.g. Doctor of Agricultural Sciences (Dr. agr.), Doctor of Economics (Dr. oec.), Doctor of Nutritional Science (Dr. oec. troph.), Doctor of Engineering (Dr. Ing.)*

* The occupations within the same occupational field stated here do not necessarily build upon one another. They represent occupations at the different reference levels in the respective occupational field which are cited as examples.

3. Two types of initial training

Dual training

- ▶ 70% company – 30% vocational school
- ▶ Training allowance
- ▶ Governed by federal laws
- ▶ 328 occupations*, including approximately:
 - ▶ 130 craft trade occupations
 - ▶ 250 industrial and technical occupations (some of which are identical to craft trade occupations)
 - ▶ 50 commercial occupations

* Overlaps in some cases

School-based training

- ▶ Large proportions of company-based practical phases in some cases
- ▶ Training allowance paid in the healthcare sector/otherwise no allowance or fees payable
- ▶ Governed by laws of the federal states
- ▶ Approx. 70 occupations in the areas of:
 - ▶ Technology
 - ▶ Foreign languages
 - ▶ Design
 - ▶ Commercial occupations
 - ▶ Healthcare, social sector, body care

4. Company-based training in the dual system

Craft trade occupations

130 occupations which predominantly lie within the areas of responsibility of the chambers of crafts and trades, the guilds and the district craft trade associations in the following areas:

- ▶ Wood-working sector
- ▶ Construction and finishing trades
- ▶ Electrical and metal-working sectors
- ▶ Clothing, textiles and leather

- ▶ Glass, paper, ceramics and allied trades
- ▶ Chemical and cleaning sector
- ▶ Healthcare and body care
- ▶ Food

Access: no formal restrictions

- ▶ Company providing training decides what prior school learning applicants will require

- ▶ Around **25%** of all trainees enter training in a craft trades occupation

4. Company-based training in the dual system

Industrial and technical occupations

Around 250 occupations (some of which are identical to craft trade occupations) in which training takes place at industrial or other major companies.

For example:

- ▶ Plant mechanic
- ▶ Biological laboratory technician
- ▶ Chemical technician
- ▶ Electronics technician for industrial engineering

- ▶ Skilled metal worker
- ▶ Machine and plant operator
- ▶ Mechatronics fitter
- ▶ Production technologist
- ▶ Materials tester

Access: no formal restrictions

- ▶ Company providing training decides what prior school learning applicants will require

- ▶ Around **60%** of all trainees enter training in an industrial and technical occupation

4. Company-based training in the dual system

Commercial occupations

50 occupations (depending on how these are counted) or more. For example in the following areas:

- ▶ Trade (retail, wholesale and foreign trade, industry)
- ▶ Office and administration
- ▶ Finance, controlling and law (banks, insurance companies, legal system)
- ▶ Health management
- ▶ Logistics and transport (forwarding and logistics services)
- ▶ Real estate
- ▶ Hotels and restaurants
- ▶ Leisure and tourism

Access: no formal restrictions

- ▶ Company providing training decides what prior school learning applicants will require
- ▶ An intermediate or higher secondary school leaving certificate is frequently demanded.

5. School-based training

Specialist healthcare professions

The following areas can be differentiated:

- ▶ regulated professions → may only be exercised by persons with a state-recognised training qualification

- ▶ Areas:

- ▶ Nursing, emergency medical services and midwifery
- ▶ Technical medical assistant occupations
- ▶ Physical and language therapy

- ▶ Further areas:

- ▶ Commercial occupations/healthcare management
- ▶ Craft trade occupations in the healthcare sector

Duration of training: usually three years

Access: **usually an intermediate secondary school leaving certificate**

Alongside the classical nursing professions, this category also includes the fields of speech therapy, occupational therapy and physiotherapy and the occupations of paramedic, podiatrist and dietary assistant.

5. School-based training

Further occupations:

Around 50 occupations with a large practical component, e.g. in the following areas:

- ▶ Technical media assistant
- ▶ Pharmaceutical, chemical or technical biological assistant
- ▶ Information technology assistant
- ▶ Technical ship's operations assistant
- ▶ Commercial management assistant
- ▶ European management assistant
- ▶ European secretary
- ▶ Hotel management clerk
- ▶ Nursing assistant occupations
- ▶ Social assistant
- ▶ Creative occupations (e.g. ceramics maker, designer)
- ▶ Occupations in the field of sport (e.g. performing artist, dancer, gymnastics teacher)

Duration of training: one to three years (depending on whether training takes place on a full-time or part-time basis).

Access: **predominantly an intermediate secondary school leaving certificate**

5. School-based training

Higher VET pathways

Certified Professional Specialist [DQR 5]

- ▶ Period of learning 400 hours
- ▶ Mainly in the IT sector

Bachelor Professional [DQR 6]

- ▶ Admission after achievement of DQR 4
- ▶ Period of learning at least 1,200 hours
- ▶ Master craftsman qualification crafts and trades sector
 - ▶ 1–3.5 years
 - ▶ Full-time or in-service
- ▶ Technician
 - ▶ Varying duration
 - ▶ Full-time or in-service
- ▶ Bachelor Professional qualifications
 - ▶ Varying duration
 - ▶ Full-time or in-service

Master Professional [DQR 7]

- ▶ Admission after achievement of DQR 6
- ▶ Period of learning at least 1600 hours

6. Opportunities for continuing training and career advancement

Transition to the academic branch of education

Transition from VET to academic education WITHOUT a higher education entrance qualification

- ▶ Access via upgrading training
 - ▶ e.g. master craftsman qualification in the craft trades (Bachelor Professional) or a comparable advanced qualification pursuant to the Vocational Training Act (BBiG) or the Crafts and Trades Regulation Code (HwO) or in the field of the healthcare professions governed by federal state law
 - ▶ General access to higher education
- ▶ Access on the basis of professionally relevant vocational education and training and occupational activity
 - ▶ At least two years of VET followed by at least three years of practical experience in the occupation in which training has taken place or in a professionally relevant occupation
 - ▶ Consultation meeting, admission examination or trial period of study may be necessary
 - ▶ Access to a course of higher education study of professional relevance to the vocational qualification/occupational activity

6. Opportunities for continuing training and career advancement

Other continuing training pathways

School/vocational qualifications via the second chance route

- ▶ e.g. Training for higher level tasks
- ▶ On an in-service basis at evening schools, full-time or at colleges or with training providers

Retraining

- ▶ Training for task other than the task previously trained for and practised
- ▶ For health or labour market-related reasons
- ▶ Duration of training usually reduced by a third because of the prior vocational learning
